- Client Organization will provide coordination within Client Organization's locations.
   Entertrainment will manage the development of the modules of the project.
- Client Organization will provide a senior Houston-based SME point of contact for four primary roles:

#### D. Proposed Project Review Process

This portion of the Proposed Letter of Agreement will include all information pertaining to Project Checkpoints outlined in the *Entertrainment* standard workflow. If certain materials do not meet *Client Organization* standards or expectations, steps may need to be revisited in order to fulfill requirements. If progress is haulted due to misteps by *Entertrainment* then there will be no repercussions; however, if misteps are due to *Client Organization* miscommunication or delayed resonse, then additional charges will be put into effect.

#### E. Project Timing

This section discusses the overall Project Timeline, establishing planned due dates for deliverables, tentative shooting schedules, and other necessary information that may affect the timely completion of Project Scope. This also includes screenwriting, potential casting calls, location scouting, crew calls, interactive content development, post production, and sound mixing.

#### F. Project Cost Estimate and Payment Terms

This is where Billing Cycles are established and defined. Generalized summaries will explain where funds will be designated within each process of the *Entertrainment* workflow. This will help to ensure understanding for *Client Organization*. Billing Cycles are necessary for maintaining consistent *Entertrainment* employee salaries and guaranteeing sufficient funds for equipment, material, and supply costs as the project progresses within the standard workflow.

Contigency funds will be discussed for inclusion as part of the Project Cost Estimate, due to possible unavoidable pre-production, production, and post-production variables.
